Artist, Writer & Change-maker

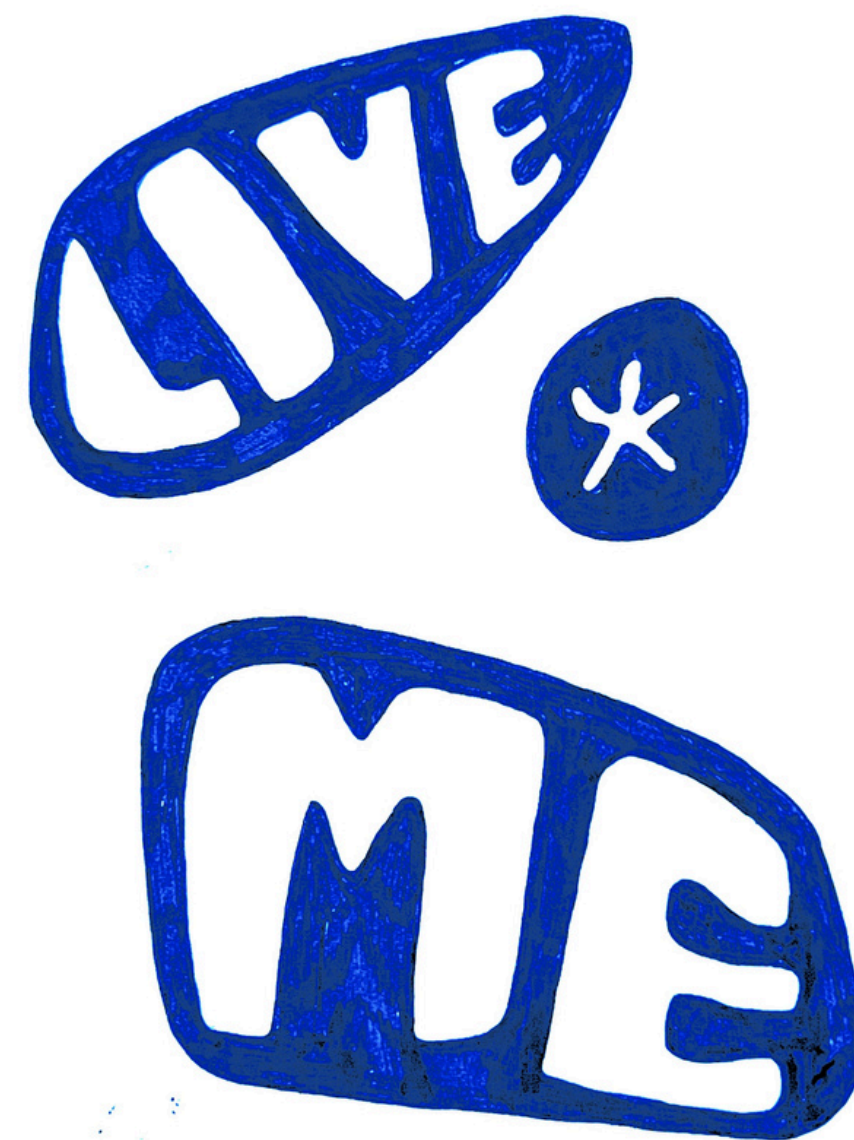

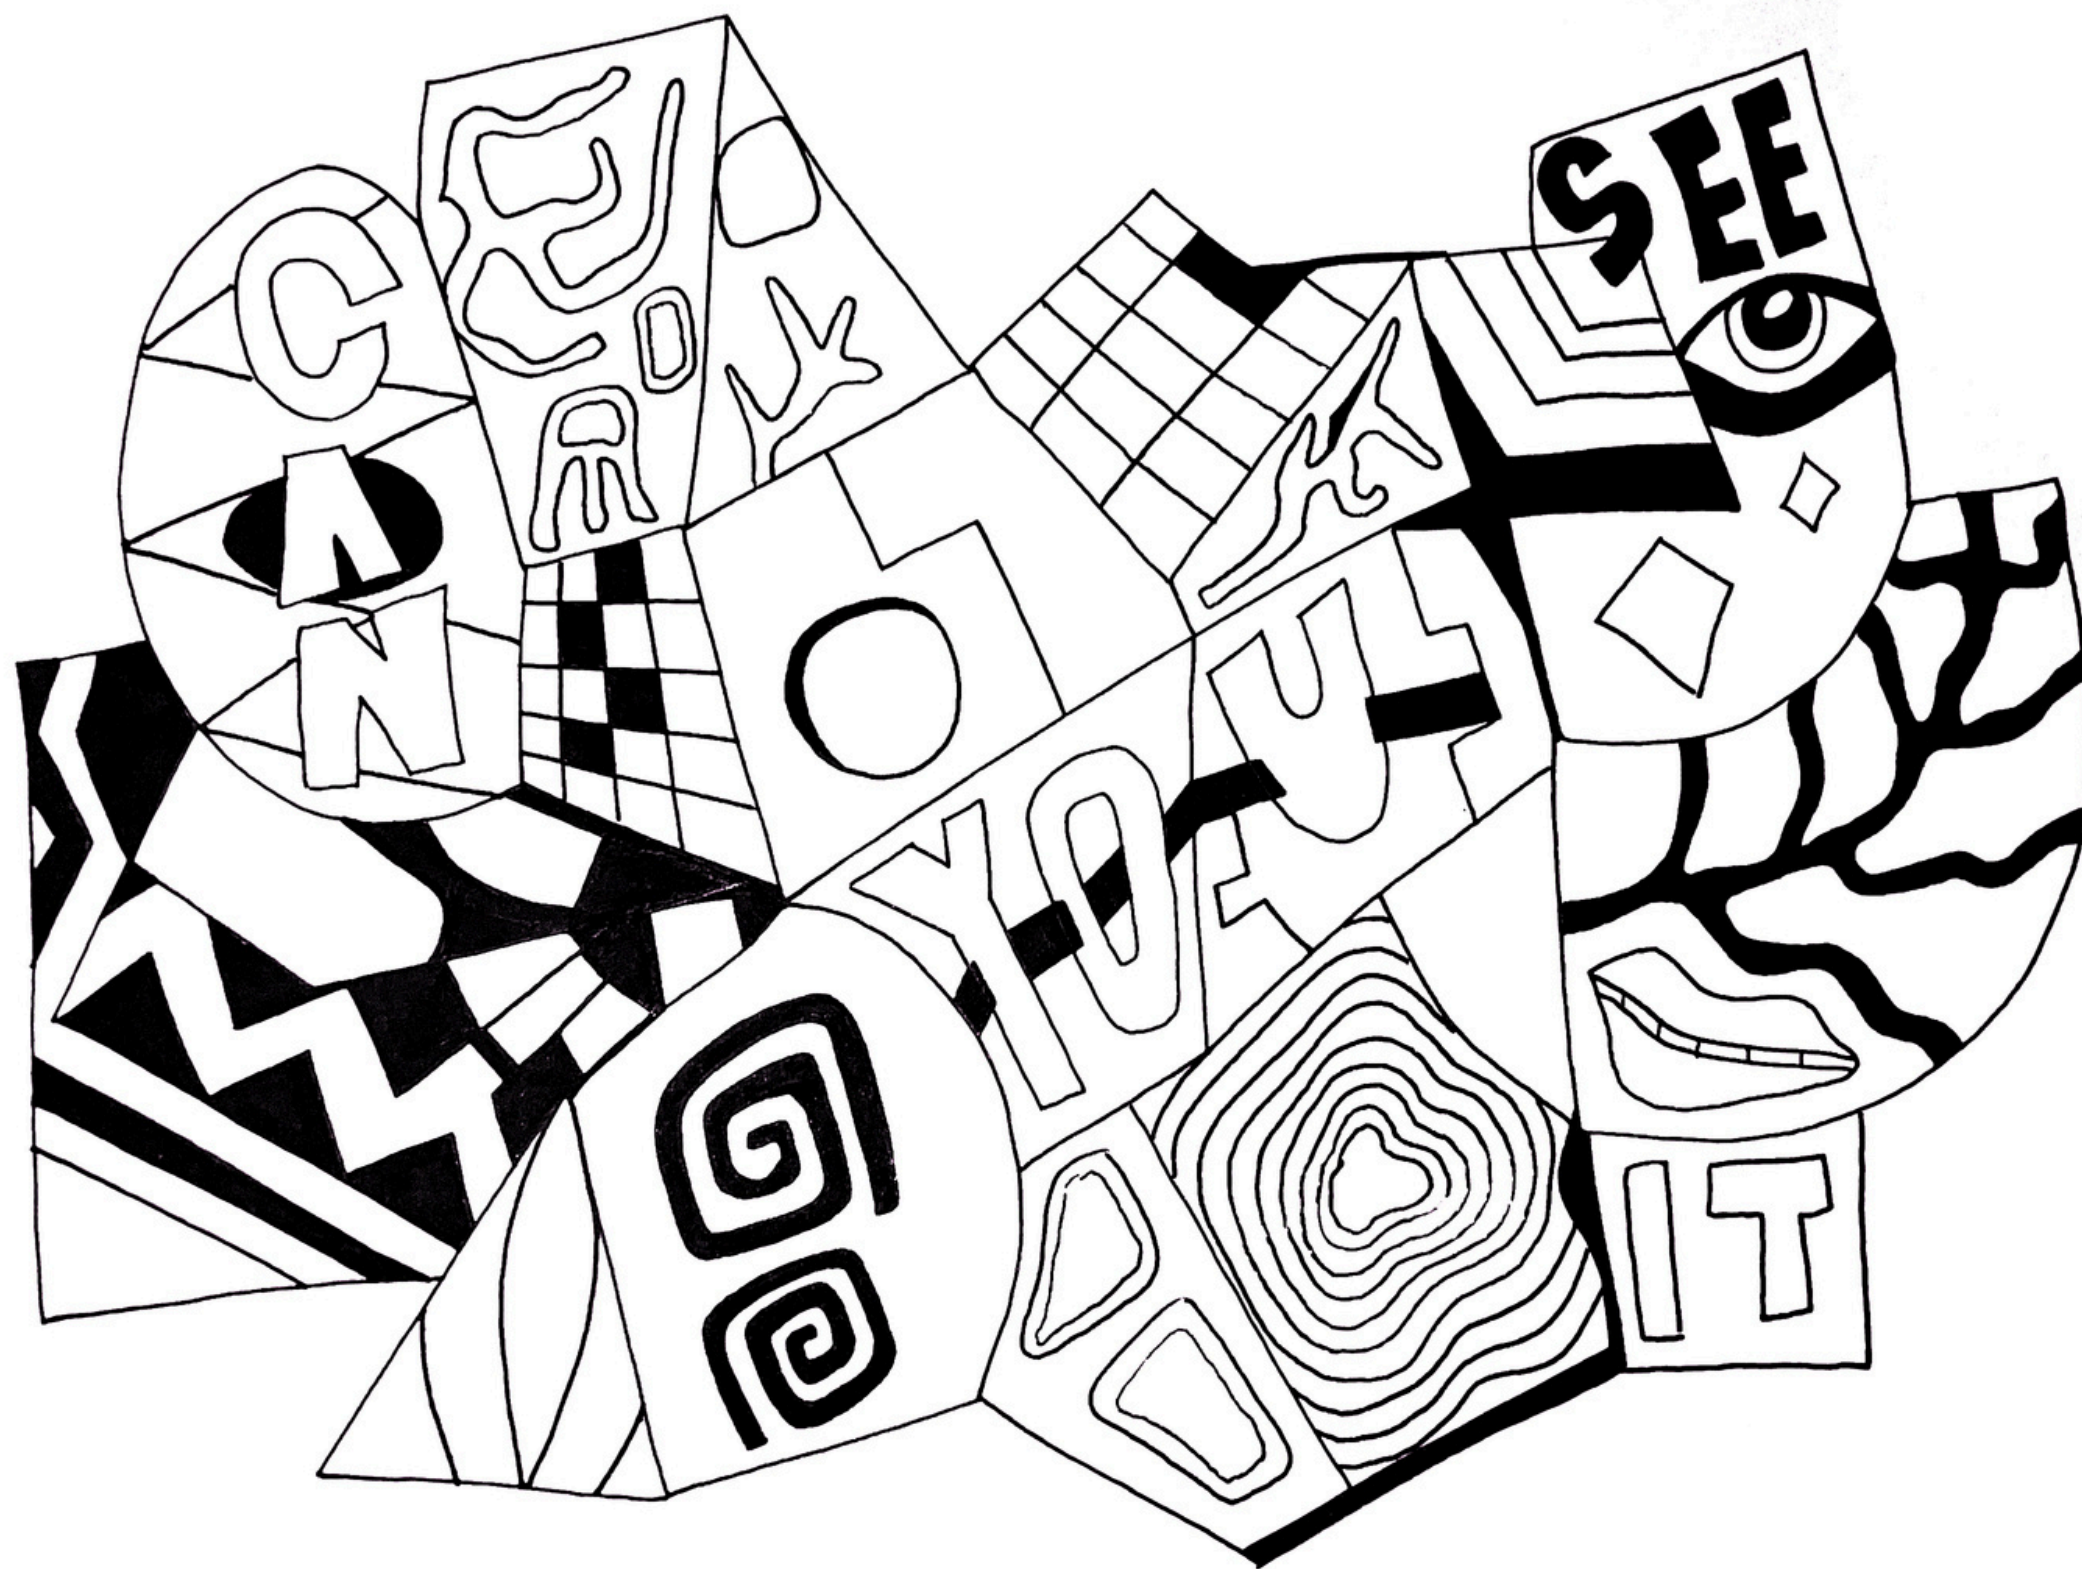

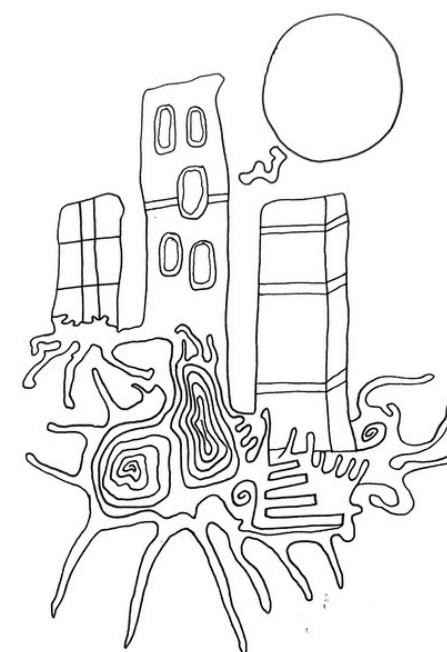

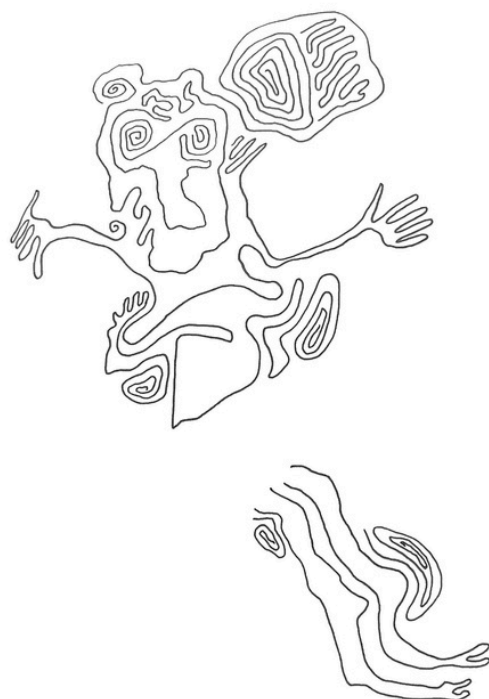

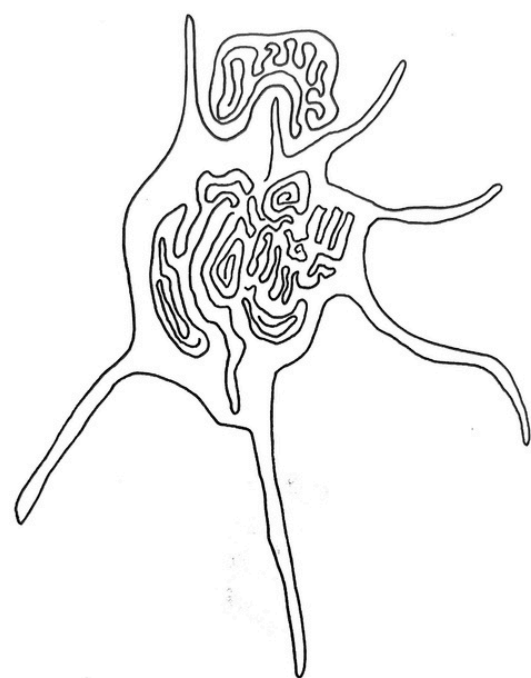

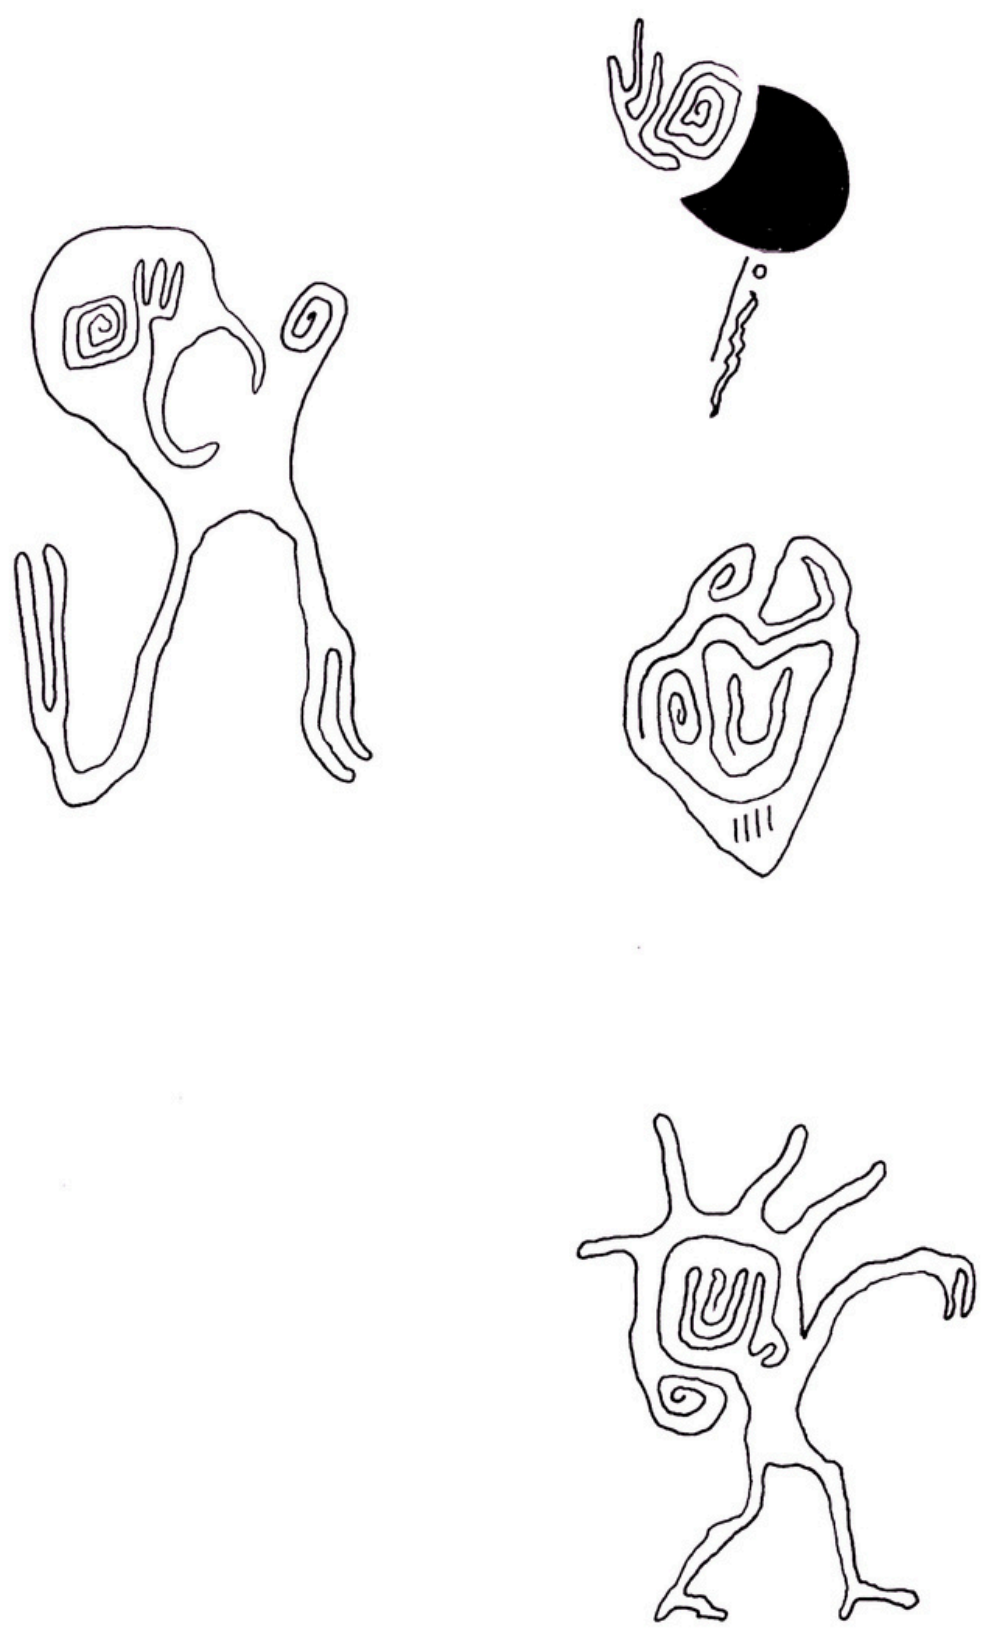

# HELLO

My name is Azaria Franco and I am a transgender artist, ,illustrator, writer and change-maker based in the UK. From a young age I have relied on art as a creative outlet, means of self expression and a coping mechanism. Through colour, space, shape and texture, I explore all that encompasses my self, with honesty and individuality. Seeking to intrigue the viewer and invite questions, all while telling a story of my past and present experiences.
